February 1, 2023

Dear students and parents,

We are so excited to share with you an event coming up this June! Vincennes University will again be hosting our Summer STEM Academy camp. This is a low cost, week-long, residential camp for current high school sophomores and juniors from June 25th to 30th. Participants will have the opportunity to learn about the fields of science, technology, engineering, and math (STEM), and we wanted to extend a special invitation to you!

Attendees will have the opportunity to receive hands-on STEM experience, hear from local employers about a variety of STEM career opportunities in the Vincennes area, connect with VU STEM alumni, and learn about preparing for college. Students will also be presenting a multidisciplinary group project at the end of camp. Upon successful completion of all aspects of camp, students will have earned two college credits in a Study Skills course which can be used as an elective course for college.

Registration will be open February 1st through March 15th or when all slots are filled. Should capacity be reached, you can be added to the waitlist and contacted if spots open. Registration cost is \$50. Scholarship opportunities are available if you cannot afford the registration fee.

To register, go to <https://ced.vinu.edu/a23stem>. For more information or if you have any questions, please contact Nicole Hagemeyer-McVay, STEM Academy Coordinator, at nhagemeyer-mcvay@vinu.edu.
